

Custom Moulding & On-Site Tool Making

Labelling and Printing Services

State-Of-The-Art UK Based Factory

# Our Commitment to Sustainability

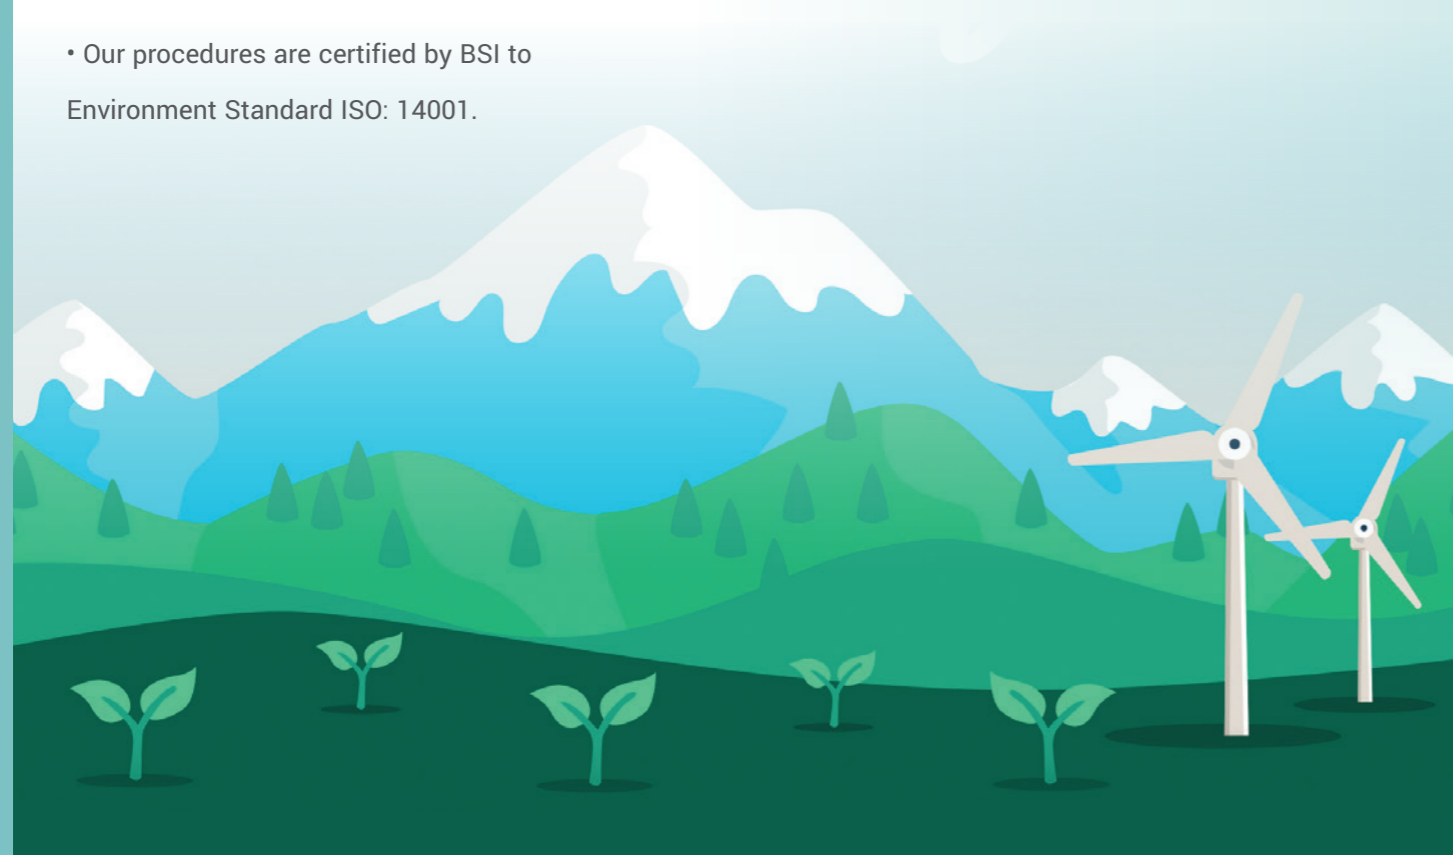

At Measom Freer, we believe that sustainable packaging is the way forward.

- All our products are manufactured by us in the UK using recyclable thermoplastics.
- Wherever possible we manufacture our products using recycled plastics including rHDPE, rMDPE, rLDPE, rPP, rPETG, rHIPS, rMIPS and bioplastics.
- We have partnered with Ecologi in order to offset our carbon footprint; any orders placed will contribute to our growing Measom Freer Forest (see page 40).
- PPT Statement: We fully comply with the HMRC Plastic Packaging Tax (PPT): Any plastic packaging which does not incorporate the minimum of 30% of recycled plastic will incur a £200 per tonne PPT.
- Our procedures are certified by BSI to Environment Standard ISO: 14001.

- We are members of Recoup (RECYcling of Used Plastics Limited) which is committed to securing sustainable, circular and practical solutions for plastic resources both in the UK and worldwide.
- We are certified for packaging compliance by Valpack for our annual recycling and recovery obligations.

**If you have a specific requirement or require further information on how we can supply sustainable packaging for your product then please contact a member of our Sales Team to discuss.**

## Value Added Services

As a family business with over 85 years' experience, we are one of the most respected names in plastic packaging. Our stock range that's featured within the pages of this catalogue is truly extensive, and is available for immediate delivery.

But there's also a lot more to Measom Freer. Our comprehensive range of services gives our customers so many options when it comes to specifying how to package their products:

### In-House Design

Our design department is equipped with the latest CAD/CAM facilities for component design, 3D modelling and visualisation through to full tool design and manufacture.

### In-House Toolmaking

We have our own in-house toolroom which has continual investment in cutting edge CNC technology which complements our CAD/CAM design facility. We specialise on the production of quality injection and blow moulding tools.

### Product Tailoring

Made to order minimum quantities apply.

Our unique service just for you, tailor made to suit your exact requirements. Made to order with minimum order quantities.

As well as our wide variety of stock ranges and products, we are also able to tailor our products to suit your specific needs without breaking the bank. As well as a full custom moulding and bespoke design service we are also happy to look at small alterations to our stock ranges to help you achieve your desired look (subject to product parameters).

The best way to achieve a new look item is by making a tailor made custom mould, which we can design and make in-house. But if you can't stretch to the price of a brand new mould we may be able to reduce the costs by making minor modifications to our current tooling.

Our products can be manufactured to match colours of your existing products for true consistency. Talk to our Sales Team about having a colour matched item or one of our standard colours that may be the economic answer to your tailoring needs.

Bottle necks can easily be changed by simply altering the mould, this allows the use of your preferred bottle cap. We can make all our products to order in any colour and suitable material (subject to testing).

For truly personalised items, Measom Freer can print artwork or add a label to complete the product and our in-house design team can help you create the desired look. We can accept most file formats and will email a pre-production sign-off form to make sure you are happy before we begin.

### Extrusion Blow Moulding

Plastic blow moulding is a manufacturing process for forming hollow plastic parts like bottles and containers. Here at Measom Freer we use Extrusion Blow Moulding where a hot tube of plastic material called a parison, is forced through an extruder and captured in a water-cooled mould. Once the mould is closed, the parison is cut, the mould moved over to a blowing station, then air is blown into the top or the neck of the container pushing the plastic out to meet the cavity within the mould. When the hot plastic material is blown up and touches the walls of the mould the material cools rapidly and the container maintains its rigid shape. One of the key benefits of blow moulding is that it can be used to manufacture complex shapes – something that can be of tremendous value for such things as product branding and identity. We can utilise this process for capacities up to 2 litres and it is ideal for plastic bottles, containers and unusual items like plastic bellows. We can use most thermoplastics for blow moulding, including PVC, HDPE, rMDPE, rHDPE, LDPE, PETG, rPETG, Bioplastics, rPP and PP (with a capacity of up to 2 litres).

### Injection Moulding

Plastic injection moulding is the process of melting plastic pellets (thermoplastic polymers) that once molten, are injected at pressure into a mould cavity which fills and solidifies to produce solid parts like caps, measuring scoops, components and parts. This process can be used with most recyclable thermoplastic materials, and we can mould up to a shot weight of approximately 350g. Injection moulding is able to produce large volumes of quality parts at a high rate of speed and with accuracy.

### Custom Moulding

Bottles and injection mouldings can be made to customers' own requirements using our in-house CAD/CAM design and CNC toolmaking facilities. Strict confidentiality at all stages. See page 7.

### Production

24 hours a day production to achieve maximum output at economic prices.

### Screen Printing

A screen printing service is available for the decoration of bottles and other mouldings.

- We can print either as single pass (one colour) or multi-pass (several colours).
- We can print onto any of our production materials including PVC, HDPE, LDPE, PETG, PP, PS, HIPS etc.
- Our in-house design service can help you with your design and we can accept most file formats.
- Printing runs can be accepted from short runs to long runs.
- Email your artwork to our Sales Team for our advice, to discuss your requirements or for an economic quotation.

### Labelling

We can label any of our stocked round products from 100ml size upwards.

Our in-house design team can help you with your design and we can accept most file formats.

Email your artwork to our Sales Team for a quote.

### Dip Tube Cutting Service

For orders up to 10,000 we can cut dip tubes to length in house for a fast turnaround; we stock 18mm spray pumps in black and white that are ideal for this (Cat No 49318).

### Recycled Manufacturing

We manufacture our products using recycled plastics wherever possible including rHDPE, rMDPE, rLDPE, rPP, rPETG, rHIPS, rMIPS and bioplastics.

### Sustainability

We believe sustainable packaging is the way forward.

We have partnered with Ecologi in order to offset our carbon footprint; any orders placed contribute to our Measom Freer Forest (see page 40).

- PPT statement: We fully comply with the HMRC Plastic Packaging Tax (PPT). Any plastic packaging which does not incorporate the minimum of 30% of recycled plastic will incur a £200 per tonne PPT.
- Our procedures are certified by BSI to Environment Standard ISO 14001.
- We are members of RECOUP (Recycling of Used Plastics Limited) which is committed to securing sustainable, circular and practical solutions for plastic resources both in the UK and worldwide.
- We are certified for packaging compliance by Valpack for our annual recycling and recovery obligations.

### How to Recycle our Products

All the products we make are manufactured with recyclable thermoplastic. We have added the SPI (Society of the Plastics Industry, Inc) Recycling Codes throughout this catalogue to help identify the material used in the product. This helps you to recycle our products in the correct recycling area of e.g: your local council, recycling area or collection scheme. A list of the codes are below with the products we manufacture listed next to them. We use closed loop recycling within our manufacturing process including typically 10-25% regrind within production, made up of tops and tails (from our extrusion blow moulding process for bottles), sprues and runners (from our injection moulding process) and more if we can to reduce any waste. Redundant stock is never thrown away; we always repurpose it into new products.

Please see specific product data listed in this catalogue for each item's specific material.

SPI Code	Material	Typically Used in which Measom Freer Products
 1 PETE	PET (Polyethylene Terephthalate)	Bottles (PETG, Polyethylene Terephthalate with Glycol)
 2 HDPE	HDPE (High Density Polythene)	Bottles, Caps, Hand Scoops, Rigid Tubes & Tube Caps, Large Spatula, Adjustable Fasteners & Drive Fastener.
 3 V PVC	PVC (Polyvinyl Chloride)	Bottles
 4 LDPE	LDPE (Low Density Polythene)	Bottles, Bottle Plugs, Clip Over Fastener.
 5 PP	PP (Polypropylene)	Caps, some Spatulas.
 6 PS	PS (Polystyrene)	Boxes, Soap Boxes, Measures, Spoon, some Spatulas
 7 OTHER	OTHER	None of our stock products.

### Quality Assurance

Our procedures are certified to BS ISO 9001:2015 (Certificate No FM13440) and BS ISO 14001:2015 (Certificate No EMS 675539).

### Samples

Samples of all our products are available to try out and it is strongly recommended that users establish for themselves the suitability of any product for their application.

For more information on any of our services or an enquiry about anything that is not mentioned above, please contact one of our friendly Sales Team.

## Custom Moulding

At Measom Freer, we put the customer first. We believe you should be able to source the exact plastic product you require - without having to make sacrifices. That means not settling for a colour that doesn't suit, a capacity that isn't quite right or a plastic that fails to meet your commitment to the environment. For both our own and our custom moulding we only work with responsibly sourced recyclable and recycled thermoplastics. We are one of Leicester's oldest Injection Moulders and Extrusion Blow Moulders. Established in 1937 and now on our 4th generation as a family-run business we know we can help you realise your projects. As well as manufacturing and stocking recyclable plastic bottles and packaging we also specialise in the design, development and manufacture of bespoke products. Attention to detail and a personal touch are paramount to the service offered and we thrive on producing a solution for even the most demanding packaging challenge.

### What is custom moulding?

Our custom moulding service involves designing and producing a plastic product exactly to your specification and requirements. With the benefit of having both blow moulding and injection moulding machines we can manufacture bespoke packaging, flexible polythene bellows, technical mouldings, parts, components, unusual bottle shapes, jars, bellows, boxes and more. We currently have over 500 moulds in use and are always interested to see what projects and ideas our customers present to us; we love a challenge!

### How we work

Our Design Department and In-House Toolroom are equipped with the latest CAD/CAM facilities for component design, 3D visualisation and modelling. We can manufacture prototypes of your required designs for you to evaluate before full production - so you can be confident the final product will look exactly as you're expecting and function as required.

Within the Design Department and Toolroom we continually invest in cutting edge technology and modern equipment allowing us to manufacture tooling to exacting British Standards. We can accept most file formats, including IGES, SLDDRP and STEP. We use Solidworks for our design which is a hugely flexible system which can generate 3D models for the customer to view with a downloadable viewer (eDrawings). This helps the customer see their designs and helps the design process go smoothly.

Need a competitive price? We always strive to offer fair pricing and cost-effective services, which is why we have 24-hour production cycles to ensure maximum output at economical prices.

### Find out more about our Custom Moulding Services

Our bespoke services mean we can design and create high quality, recyclable & recycled plastic bottles, containers and injection moulded parts to fit seamlessly with your business. And, of course, we promise strict confidentiality at all stages, to protect your designs and brand. Our reputation in the business is a testament to our experience and exceptional customer service, so why not put us to the test? Our procedures are certified by British Standards Institute, and we hold certificates in Quality Management ISO 9001 and Environmental Management ISO 14001. Get in touch to find out more or to discuss your requirements in more detail. Our skilled team can help you to identify the ideal custom mould solution and will assist you right the way through to the overall finished design and look.

### Why stop there?

If you're looking for ways to maximise your branding, then why stop at our custom moulding service? After perfecting the design and shape of your bottle, complete the look with our bespoke printing and labelling services. With the help of our talented in-house team, you can ensure your product design is finished to perfection with the inclusion of logos and text in either one or multiple colours.

## Measuring and Handling Scoops

When you need a measuring scoop to help deliver a precise dosage our collection is the perfect answer. Available in sizes ranging from 0.5ml to 150ml there is something for all industries from coffee and protein powder, sprinkles and cake decorations to animal feed and fish food and flakes. We stock our measuring scoops in recyclable blue Polystyrene and have the option to include handle printing. We can also make them in clear, other colours and other materials.

Our larger handling scoops have a tapered front and easy-grip handle and are ideal to work with all manner of products, from fine powders to substantial grains and solids and can also be used with both wet and dry substances. Manufactured in natural recyclable HDPE, our plastic hand scoops can be included with powder soaps and other cleaning powders. They are also ideal for animal use: dispensing food, supplements, feed or seed etc., as well as in agriculture, horticulture and industrial situations, production and in catering/ retail environments.

## Recycled Measuring and Handling Scoops

Our Recycled Measuring Scoops are available from stock in 50% recycled dark grey Polystyrene rHIPS. We blend recycled dark grey Polystyrene rHIPS with clear Polystyrene to produce a great product. The resulting medium-impact material has good durable properties and can be used for washing powder, home products, garden products, disinfectant, chemical dosage, water treatment, lawn treatments, fertiliser, plant food, pigment mixing, craft products as well as household and industrial use.

Our larger handling scoops are also available in natural recycled PE and are perfect for wet or dry products.

### NEW Available in 50% recycled Polystyrene rHIPS

Our recycled measuring scoops are made by us in recycled rHIPS, which comes from post-consumer recycled material (PCR) and can be manufactured in up to 100% rHIPS, if required.

## Martlet Tall Boston Round

Our Martlet range is manufactured from natural recyclable MDPE, making a slightly squeezable bottle ideal for a wealth of uses: shampoos/conditioners; crafts and acrylic paints; alcohol paints; animal health; car detailing; oil analysis; diagnostics. See our website for more details of application suitability.

The entire range can also be made in recycled rMDPE, HDPE and LDPE, with colour options available too.

See our wide variety of caps, pumps and closures on pages 30 to 36.

### NEW All Bottles Available in Recycled MDPE

Our Recycled Martlet Tall Boston Round range is the same as our Martlet range but manufactured from recycled rMDPE, still retaining that slightly squeezable bottle finish. We manufacture these bottles with 50% Recycled HDPE (non Food Approved) and 50% standard LDPE meeting the UK 30% plastic tax (PPT). We also stock this recycled range in white - please ask our Sales Team for details.

## Fosse Oval Tottle

Available from stock in recyclable Natural Medium Density Polyethylene and designed with the dual benefit of being used upright or standing on the cap as a tottle. It is therefore ideal for applications where thicker products need to be easily dispensed: shower gels; ketchups; hand sanitiser. See our website for more details of application suitability.

Now available in HDPE, LDPE, PP or with PCR content on request (and we can manufacture with 50% recycled HDPE and 50% standard LDPE to comply with the UK 30% Plastic Packaging Tax). White, black and colours also available to order.

See our flip caps and wide variety of other caps, pumps and closures on pages 30 to 36.

## Amenity and Small Hotel

Manufactured in clear, recyclable PVC (apart from the Topaz bottle which is in natural HDPE), these compact, shaped bottles are ideal for applications in many markets: hotel cosmetics; beauty products; premium toiletries; forensic & industrial samples. See our website for more details of application suitability.

Other colours and materials (such as PETG) are available to order - please ask for details.

See our wide variety of caps, pumps and closures on pages 30 to 36.

**25ml Regency**

Cat. No: 6250  
Material: Clear PVC  
Neck Size: 15mm R4  
Diameter: 33mm  
Height: 60mm  
Box Quantity: 900

**30ml Regency**

Cat. No: 6251  
Material: Clear PVC  
Neck Size: 18mm R4  
Diameter: 36mm  
Height: 64mm  
Box Quantity: 750

**30ml Dumpy**

Cat. No: 6114\*  
Material: Clear PVC  
Neck Size: 18mm R4  
Diameter: 34mm  
Height: 60mm  
Box Quantity: 850

**60ml Dumpy**

Cat. No: 6216\*  
Material: Clear PVC  
Neck Size: 18mm R4  
Diameter: 42mm  
Height: 71mm  
Box Quantity: 350

**30ml Topaz**

Cat. No: 6185  
Material: HDPE  
Neck Size: 18mm R4  
Diameter: 35mm  
Height: 69mm  
Box Quantity: 750

\* Our full range of Dumpy bottles is on page 18.

**30ml Crown**

Cat. No: 6158  
Material: Clear PVC  
Neck Size: 18mm R4  
Width: 38.5mm  
Depth: 26.5mm  
Height: 75.5mm  
Box Quantity: 750

**50ml Crown**

Cat. No: 6157  
Material: Clear PVC  
Neck Size: 18mm R4  
Width: 44mm  
Depth: 26.5mm  
Height: 93.5mm  
Box Quantity: 500

**30ml Opal**

Cat. No: 6156  
Material: Clear PVC  
Neck Size: 15mm R4  
Width: 32mm  
Depth: 20mm  
Height: 86mm  
Box Quantity: 900

## Tall Round Tube Bottles

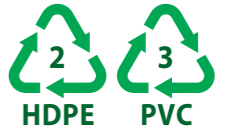

Available from stock in a range of sizes and recyclable materials as shown, these tall tubes are ideal for a variety of uses: shower gel; shampoo; lotions; gels; lab samples. See our website for more details of application suitability.

Other colours and materials are available to order.

Now also available with PCR content on request (with recycled HDPE, negating the 30% UK plastic tax).

See our wide variety of caps, pumps and closures on pages 30 to 36.

N.B: The 125ml and 250ml bottles will only fit the Fosse flip cap (p.13), making them useable as a tottle or bottle.

**15ml MDPE**

Cat. No: 6210PE  
Material: Natural MDPE  
Neck Size: 18mm R4  
Diameter: 22mm  
Height: 70mm  
Box Quantity: 1400

**20ml MDPE**

Cat. No: 6018PE  
Material: Natural MDPE  
Neck Size: 18mm R4  
Diameter: 20.5mm  
Height: 93mm  
Box Quantity: 1100

**30ml MDPE**

Cat. No: 6211PE  
Material: Natural MDPE  
Neck Size: 20mm R4  
Diameter: 24mm  
Height: 103mm  
Box Quantity: 700

**50ml MDPE**

Cat. No: 6212PE  
Material: Natural MDPE  
Neck Size: 24mm R4  
Diameter: 28mm  
Height: 122mm  
Box Quantity: 400

**100ml MDPE**

Cat. No: 6120PE  
Material: Natural MDPE  
Neck Size: 22-400/40  
Diameter: 39mm  
Height: 117mm  
Box Quantity: 250

**125ml MDPE**

Cat. No: 6213PE  
Material: Natural MDPE  
Neck Size: 22-400/40  
Diameter: 38mm  
Height: 138mm  
Box Quantity: 200

## Snap-on Dropper

Available from stock in recyclable white MDPE and clear PVC, this range of captive closure bottles ensures safe, tamper-proof dispensing of liquids in applications such as: solvents, oils & chemicals; test kit solutions; adhesives; toiletries; animal health. See our website for more details of application suitability.

Colours and manufacture in other materials are available to order.

Please note: the Snap-on Dropper Cap can only fit our corresponding Snap-on Dropper Cap bottle. Our Screw-on Dropper Cap can fit any of our bottles with a 15mm neck.

## Polythene Metric Boston Round

Manufactured in our standard recyclable HDPE (with the exception of 6024/30ml which is stocked in MDPE), this versatile range is suitable for numerous applications: acrylic and alcohol paints; oil analysis; craft and hobby; oils, gels and lubricants. See our website for more details of application suitability.

Also available to order in black and in other materials including recycled content - please ask for details.

See our wide variety of caps, pumps and closures on pages 30 to 36.

## Cylindrical / Round and Rectangular

Available in a range of materials as shown and in a flexible number of sizes to suit many applications: toiletries; paints; chalks; adhesives and industrial liquids. See our website for more details of application suitability. Can be ordered in black, white and colours.

The 20ml 6166 bottle has a warning triangle embossed on its side and is available in white (colours to order).

The 100ml 6143 'Post Bottle' has been designed specifically to be within UK 'Large Letter' dimensions.

Now available with PCR content on request (and we can manufacture with 50% recycled HDPE and 50% standard LDPE to comply with the UK 30% Plastic Packaging Tax).

See our wide variety of caps, pumps and closures on pages 30 to 36.

## Bottle Plugs

Stocked in natural recyclable LDPE to fit our standard necks, these plugs reduce the pouring flow for liquids including: cosmetics; toiletries; industrial; forensic kits. The multi-hole plug is ideal for powders. Ideally, our plugs should be combined with our plugseal or wadded caps for a secure seal. See our website for more details of application suitability.

Available in colours and other materials like HDPE and PP (to order).

## Screw Caps

Our extensive range of ribbed and smooth screw caps are manufactured in recyclable white or black Polypropylene with a choice of seals; please ensure that the correct catalogue number is specified for the corresponding seal-type required. See our website for details of application suitability. Available to order in other materials as well as an extensive range of colours.

### WADDED

Wadded caps, which have an inner liner to help create a better seal for liquids and oils and can be used with or without a bottle plug.

### SKIRTSEAL

Skirtseal caps, which seal on the bore of the bottle and should not be used in conjunction with a bottle plug.

### PLUGSEAL

Plugseal caps, which must only be used with a bottle plug. (See page 30).

### NEW Available in Recycled rPP

Our Recycled Screw Caps range is the same as our ribbed and smooth screw caps but manufactured from recycled rPP. We manufacture these caps in the UK from 100% recycled Polypropylene, far exceeding the UK 30% Plastic Tax (PPT) and they are available from stock in black or white.

## Tall and Ball Caps

Manufactured in recyclable white Polypropylene, these caps are suitable for many of our stock bottles. Fine Ribbed caps offer extra grip when a tighter seal is required. Tall caps also have options that are designed specifically for use with bottle plugs. Our Ball caps are manufactured with a skirtseal so no bottle plug is required. For details of applications and technical information on these different caps, please consult our website.

Other colours and recycled materials are available to order.

### WADDED

Wadded caps, which have an inner liner to help create a better seal for liquids and oils and can be used with or without a bottle plug.

### SKIRTSEAL

Skirtseal caps, which seal on the bore of the bottle and should not be used in conjunction with a bottle plug.

### PLUGSEAL

Plugseal caps, which must only be used with a bottle plug. (See page 30).

Available in Recycled Material

Need caps making in a colour?

## Spouted Caps and Luer Caps

Our Spouted caps have long nozzles and re-closure tip and can also be manufactured in black for products like UV resin. Luer caps fit standard Luer-lock and Luer-slip systems for use with different nozzles and tops that fit our stock bottles, for many precise applications. For details of applications and technical information, please consult our website.

Other colours and recycled materials are available to order. Spouted caps are available in recycled PP, with a white or black finish.

## Dropper/Nozzle Caps and Nozzle Plugs

Our Nozzle plugs/caps range is ideal when a small or precise dosage is required: chemicals; inks; testing kits etc. See our website for details of application suitability.

Our Snap-on Dropper caps have to be used with our Snap-on Dropper bottles whilst the Screw-on Dropper caps can fit any of our 15mm neck bottles.

Alternative colours and recycled materials are available to order.

### NEW Available in Recycled LDPE

Our Recycled Nozzle caps and Dropper caps ranges are the same as our standard ranges but manufactured by us in recycled material: Nozzle caps in 100% rMDPE; Nozzle plugs 50% rLDPE, and Dropper caps 50% rLDPE, all far exceeding the UK 30% Plastic Tax (PPT) and they are available in black or white.

## Flip Caps and Disc Caps

These reusable dispensing caps are manufactured in recyclable white Polypropylene. They are designed with either an integral hinged lid or push-up hinged disc, depending on design. Both can be used for the safe and secure application of viscose solutions such as: hand gel & sanitiser; pharmaceuticals; hair products, fishing bait attractants & enhancers etc. See our website for details of application suitability and also for our stocked bottles that are compatible with our Flip and Disc caps.

## Spray, Gel, Lotion Pumps and Trigger Spray

Manufactured in recyclable white Polypropylene (mostly), this range is subject to minimum order quantities as they are made to order, except \*49318 and \*53124 which are stock items (please see website for details). Suitable for a large range of applications, including: cosmetics; cleaning; industrial; automotive; horticulture. See our website for more details of application suitability.

For manufacture in colours, please ask for details.

**15mm Ribbed Spray Pump**

Cat. No: 49315  
Material: Mostly Polypropylene  
Neck Size: 15mm R4  
Diameter: 18mm  
Height: 39mm  
Dose: 120ml

**18mm Ribbed Spray Pump**

\*Stock Product

Cat. No: 49318  
Material: Mostly Polypropylene  
Neck Size: 18mm R4  
Diameter: 21mm  
Height: 42mm  
Dose: 100ml  
Box Quantity: 2000

**20mm Ribbed Spray Pump**

Cat. No: 493205  
Material: Mostly Polypropylene  
Neck Size: 20mm R4  
Diameter: 23.5mm  
Height: 47mm  
Dose: 120ml

**22mm Ribbed Spray Pump**

Cat. No: 49322  
Material: Mostly Polypropylene  
Neck Size: 22mm R4  
Diameter: 25.5mm  
Height: 51mm  
Dose: 120ml

**24mm Ribbed Spray Pump**

Cat. No: 49324  
Material: Mostly Polypropylene  
Neck Size: 24mm R4  
Diameter: 28.5mm  
Height: 54mm  
Dose: 160ml

**18mm Smooth Gel Pump**

Cat. No: 49518  
Material: Mostly Polypropylene  
Neck Size: 18mm R4  
Diameter: 21mm  
Height: 43.1mm  
Dose: 200ml

**20mm Smooth Gel Pump**

Cat. No: 49520  
Material: Mostly Polypropylene  
Neck Size: 20mm R4  
Diameter: 23mm  
Height: 47.1mm  
Dose: 200ml

**22mm Ribbed Gel Pump**

Cat. No: 49522  
Material: Mostly Polypropylene  
Neck Size: 22mm R4  
Diameter: 26mm  
Height: 48.5mm  
Dose: 400ml

**24mm Smooth Gel Pump**

Cat. No: 49524  
Material: Mostly Polypropylene  
Neck Size: 24mm R4  
Diameter: 28mm  
Height: 52.5mm  
Dose: 400ml

**24mm Ribbed Lotion Pump**

Cat. No: 52124  
Material: Mostly Polypropylene  
Neck Size: 24mm R4  
Diameter: 28mm  
Height: 60mm  
Length: 43mm  
Dose: 1.5ml

**28mm Ribbed Lotion Pump**

Cat. No: 52128  
Material: Mostly Polypropylene  
Neck Size: 28mm R4  
Diameter: 31.5mm  
Height: 71mm  
Length: 68mm  
Dose: 3.5ml

**31mm Ribbed Lotion Pump**

Cat. No: 52131  
Material: Mostly Polypropylene  
Neck Size: 31mm R6  
Diameter: 33.5mm  
Height: 60.5mm  
Length: 70mm  
Dose: 3.5ml

**24mm Trigger Spray**

Cat. No: 53124  
Material: Mostly Polypropylene  
Neck Size: 24mm R4  
Diameter: 23.5mm  
Height: 74mm  
Length: 70mm  
Dose: 0.25ml  
Box Quantity: 200

## Small Clear Tubes

Our clear tubes are manufactured in either recyclable clear Polystyrene or recyclable Polypropylene and their rigid design makes them suitable for many applications: laboratory testing; cake decorations; museum; crafts; dental. See our website for more details of application suitability.

The included Screw-on or Push-on caps come complete with a secure closure and are manufactured in White or Natural LDPE.

<b>5ml Screw-on Cap Rigid Tube</b> Cat. Here at Measom Freer we offer a wide choice of packaging solutions, and there will be a perfect solution for you. We manufacture and hold extensive stock, so whatever your requirements may be, all items are available for prompt delivery. We also sell this stock in small quantities starting from just one box, meaning our products are accessible to all organisations. If you've not found the perfect packaging in our catalogue, we can work with you to create bespoke tooling and custom moulds in our on-site tool room. We ensure that we will meet your exact requirements. We have further value-adding functions like labelling, screen printing and dip-tube cutting meaning we can do everything you may need in-house.

Our reputation for quality packaging has been carefully built up over 85 years with thousands of satisfied customers. With such a wide choice, the answer to your quality packaging needs is available with us.

Possibilities for our packaging are endless, and we already service a vast range of industries:

Pet Care & Equine

Food & Drink

Beauty & Cosmetics

Hobbies & Crafts

Industrial & Household

Health & Pharmaceutical

All available from stock;  
please call our sales department.
